

KAVYASHREE C V

AI / ML Engineer | Generative AI & Python Backend Developer

Bengaluru, Karnataka | kavyashreecv2@gmail.com
linkedin.com/in/kavyashree-cv-ai | github.com/Kavya99720

PROFESSIONAL SUMMARY

Generative AI intern at CellStrat, designing and testing voice AI agents. Computer Science graduate (CGPA 8.32) who builds production-style Gen AI applications: LLM agents, RAG, MCP servers, FastAPI backends and React frontends, delivered test-first (Pytest, Vitest, Playwright) with AI coding assistants like Claude Code. Open to full-time AI/ML, Gen AI and Python backend roles.

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript, JavaScript, Java, Kotlin
Generative AI: LLM APIs (Groq, OpenAI, Claude, Gemini), RAG, ReAct Agents, Multi-Agent Orchestration, MCP, Prompt Engineering, Voice AI Agents
ML / Data: NLP (LDA, NMF, K-Means), Pandas, Excel, Power BI, Tableau
Backend & Databases: FastAPI, Pydantic, SQLAlchemy, Alembic, REST APIs, PostgreSQL, SQLite
Frontend: React, Vite, Streamlit, Jetpack Compose
Tools & DevOps: Git, Docker, Pytest, Vitest, Playwright, Render, Railway, Firebase, Claude Code

EXPERIENCE

Data Science Intern (Generative AI) — CellStrat, Bengaluru Jun 2026 – Present

- Design, prompt and test voice AI agents for e-commerce, HR recruitment, healthcare, pharma and retail use cases.
- Identify and document agent failures with screenshots, prompt snippets and improvement recommendations.
- Delivered technical webinars on Generative AI (Transformers, LLMs) and building with Claude (agents, MCP, Claude Code).

Android App Development using Generative AI Intern — Mind Matrix, Bengaluru Feb 2026 – May 2026

- Built **Shaale-Vikas**, an Android app in Kotlin + Jetpack Compose (MVVM) with Firebase and the Gemini API.

PROJECTS

BillShield — AI Hospital Bill Auditor FastAPI, React, TypeScript, SQLite, MCP
github.com/Kavya99720/billshield

- Rules engine flags hospital overcharges against rate schedules and policy clauses with citations; drafts dispute letters.
- Human-in-the-loop review with four-eyes rule, bcrypt-hashed accounts, signed session cookies, CSRF and login logout.
- Read-only MCP server with PHI masking for AI agents; 99 Pytest + 43 Vitest + Playwright end-to-end tests.

AI-Powered Document Intelligence & Data Extraction Platform FastAPI, Groq, PostgreSQL, Docker
github.com/Kavya99720/doc-intelligence-platform | Live: doc-intelligence-platform-i72d.onrender.com

- OCR (PyMuPDF + Tesseract) + LLM structured extraction for invoices and contracts, validated by a business-rules engine.
- Field-level confidence scoring, human-review flagging and PostgreSQL audit trail; Streamlit dashboard, deployed on Render.

Enterprise AI Operating System — Multi-Agent Orchestration FastAPI, PostgreSQL, React, Groq
github.com/Kavya99720/enterprise-ai-operating-system

- Custom (non-LangChain) agent/provider architecture: agent selection, LLM execution, retries and execution history.

AI Placement & Interview Prep Assistant Suite FastAPI, Groq, Pytest
github.com/Kavya99720/interview-prep-assistant-suite

- RAG pipeline, ReAct agent and MCP server built from scratch with rule-based fallbacks and Pytest suites.

Audio Notes Platform FastAPI, Gnani ASR, Groq, Railway
github.com/Kavya99720/gnani-audio-notes

- Audio upload to speech-to-text transcript and LLM summary, with progress states and error handling; deployed live.

EDUCATION

B.E. Computer Science & Engineering — Vemana Institute of Technology, Bengaluru (VTU) 2022 – 2026 | CGPA 8.32
Pre-University (PCMB) — SVVN PU College, Neraluru 2021 – 2022 | 84.8%
SSLC — New Macaulay English School 2019 – 2020 | 92%

CERTIFICATIONS

Anthropic (Claude Academy): Claude Code 101, Claude Code in Action, Introduction to Model Context Protocol, MCP: Advanced Topics, Building with the Claude API, Claude 101, Introduction to Claude Cowork

NPTEL: Artificial Intelligence: Concepts and Techniques, Cloud Computing, Blockchain and its Applications | **Infosys Springboard:** Python Basics, Java Essentials | **Salesforce Trailhead:** Agentblazer Champion 2026, 17,625+ points, 51+ badges
